From: Emergency Management Team

Subject: COVID-19 Pandemic Agency Update

Hello all,

This week we had our first experience with people we supported being tested for COVID-19. We had five (5) people tested between two locations. It was a stressful learning experience. Great News! All five (5) COVID tests results have come back NEGATIVE!

We extend our gratitude to the teams who have been assisting people through the isolation process and ensuring their safety. We have been advised by Public Health that as long as people have been symptom free for 24 hours they can return to their regular activities. Staff and individuals are no longer required to wear their isolation PPE, and can return to the fabric homemade masks if you desire.

Homemade Masks & Scrub Caps

- Homemade masks and scrub caps have been generously donated and received. If you have a need, please let us know and we will do our best to get some to you.

Current COVID-19 Communications

- All LCDS EMT COVID-19 memos and resources can be found on the LCDS website <https://lcdspetrolia.ca/>

Lambton Public Health & Bluewater Health COVID-19 Update Links
