

# Memorandum

**To:** All LCDS Employees & Families  
**Date:** February 3, 2022  
**From:** Nick Salaris  
**Subject:** COVID-19 Agency Outbreak Update

---

Good afternoon,

We do have some good news to share. This morning, we received the notice that Lambton Public Health has declared our one remaining outbreak due to COVID-19 at our Aniline St/Oil Springs location over. A heart-felt thank you to the employees, people we support and their families that have worked tirelessly through the outbreak and isolation requirements together.

This leaves the agency with no locations currently in an outbreak situation. While this is great news, we must not let our guard down. We will continue follow the lead and work with Lambton Public Health as we navigate through this surge in the pandemic. We continue to be an essential service and it is critical we continue to serve the people we support through these challenging times.

We again continue to be extremely thankful to our dedicated employees for their flexibility and resiliency. We will continue to keep you updated with any new developments.

Be well.

Sincerely,

A handwritten signature in black ink, appearing to read 'Nick Salaris'.

Nick Salaris  
Executive Director
